Introduction

The aim of this report is to outline the advantages and potential problems of investing money in a self-study centre for our college. In order to do this, I have visited the self-study centre at Central English University.

Advantages

There are several advantages of the facility at Central English University. Firstly, it helps to attract potential students to the university. Secondly, many students have also found the space and worksheets that are provided very useful.

Disadvantages

The main disadvantage is the significant cost. Despite many people from the community using the centre facilities, which helps to fund it, it cost a significant amount to set up and there is also the cost of having a full-time assistant on duty, even if the centre is empty. In addition, writing materials for the centre is time-consuming for the teachers.

Recommendations

Although there would be some students who would benefit from a self-study centre, the significant costs of time and money would outweigh the advantages.

I would therefore recommend looking at other options.
